---

Full Stack Developer with expertise in React.js, Angular, .NET, and SQL Server, experienced in building scalable web applications and intuitive user interfaces. Skilled in Agile development, API integration, and performance optimization, with a strong track record of delivering high-quality software solutions. Passionate about clean, maintainable code, problem-solving, and collaborating in dynamic team environments to drive innovation.

## WORK EXPERIENCE

---

### *Software Engineer*

#### **eWorx International – Lahore, Pakistan (Remote) | Sep 2025 – Present**

- Worked as Full Stack Developer in Sprint-based Agile environment, contributing to development and modernization of enterprise-level applications using modern Microsoft and Frontend Technologies.
- Designed and developed scalable, high-performance web applications using latest .NET (ASP.NET Core) and Modern Angular, ensuring clean architecture and maintainable code.
- Contributed to the modernization of legacy ASP.NET Web Forms applications, aligning them with current development standards.
- Implemented and maintained microservices architecture, enabling modular development and independent service deployment.
- Designed and optimized SQL Server databases, improving performance and ensuring data consistency.
- Implemented a secure Single Sign-On (SSO) solution between legacy Web Forms applications and modern Angular/.NET applications, enabling unified authentication across platforms.
- Managed applications deployment on Microsoft Azure, leveraging cloud services for scalability.
- Containerized applications using Docker, improving CI/CD processes and ensuring consistency.
- Actively worked within a Sprint-based Agile environment, participating in sprint planning, daily stand-ups, backlog grooming, and retrospectives.

### *Full Stack Developer*

#### **Paranox Technologies – Islamabad, Pakistan | Nov 2024 – Sep 2025**

- Designed and developed responsive web applications using React.js and Angular, enhancing user engagement.
- Led full-stack development, ensuring seamless integration between front-end and back-end systems.
- Built and maintained scalable .NET backend solutions with high security and performance.
- Created and optimized RESTful APIs for efficient data handling.
- Implemented robust authentication and authorization mechanisms.
- Diagnosed and resolved complex technical issues, improving system efficiency.

## ***Full Stack Developer***

### **IzyLogic – Gujranwala, Pakistan | Oct 2022 – Oct 2024**

- Demonstrated proficiency in both front-end and back-end development, enabling seamless integration of UI and server logic.
- Developed and maintained responsive web applications using React.js.
- Implemented user interfaces and components to enhance the user experience.
- Collaborated with designers to ensure pixel-perfect design implementation.
- Integrated third-party APIs and libraries for enhanced functionality.
- Optimized application performance through code splitting and lazy loading.
- Designed, developed, and maintained server-side applications using .NET.
- Created RESTful APIs for data retrieval and manipulation.
- Implemented authentication and authorization mechanisms for secure access.
- Ensured data integrity and reliability through database design and optimization.
- Debugged and resolved server-side issues to ensure smooth application operation.

## ***Frontend Developer***

### **Xebex – Lahore, Pakistan | Jan 2021 – Sep 2022**

- Worked with the senior developer to create a new website from scratch using React, JavaScript, HTML, CSS, and Bootstrap.
- Implemented responsive design techniques so the site could be viewed on any device without issue.
- Developed and maintained websites using React, JavaScript, HTML, CSS, and Bootstrap.
- Ensured that all code is well documented, reusable, efficient, and followed best practices.
- Used source control tools (GitHub) appropriately depending on the task at hand and participated in daily standups when applicable.

## ***IT Assistant***

### **The City School – Gujranwala, Pakistan | Feb 2020 – Jan 2021**

- Provide technical support for software reconfigurations to aid in function customization.
- Network with WAN and active directory for continuous company connection.
- Reviewed system and network performance to make proactive adjustments based on established IT policies.
- Configured hardware, devices, and software to set up workstations for employees.

## **RELEVANT SKILLS**

---

### **PROGRAMMING & TOOLS:**

- React.js, Angular, .NET (ASP.NET Core, MVC), SQL Server
- JavaScript, TypeScript, HTML, CSS, Bootstrap
- RESTful APIs, Authentication (JWT, OAuth), Git, GitHub, Bitbucket, Docker
- Database Optimization, Query Performance Tuning

### **SOFT SKILLS:**

- ✓ Problem-Solving | ✓ Team Collaboration | ✓ Agile & Scrum | ✓ Communication |
- ✓ Attention to Detail

## LANGUAGES

---

✓ Urdu

✓ English

## EDUCATION

---

- **Bachelor of Science (BS) – Computer Science**  
University of Gujrat, Pakistan | **2018**
- **F.Sc – Pre-Engineering**  
Punjab College, Gujranwala, Pakistan | **2014**
